

Poseidon info letter no. 6 of 20-02-2014

Distributed to project partners and business partners

Dear project partners.

Then it became time for the first status update from the Poseidon project containing a brief description of the entire program for 2014 as well as what the coming months will bring.

The year started with the audit visit on Tuesday the 21 of January and we had a signed auditor statement for the last six months of 2013 Monday the 10 of February.

Steering group meeting

Thursday the 13 of February we had this year's first successful steering group meeting in Ølby where the upcoming student exchange, conference and press work in connection with this were on the agenda. We also had a talk about the competence boards and language APPs, as well as wishes regarding budget changes for 2014. At the moment staff at Fremtidslinjen is working with the competence boards in all classes in order to get a better idea of what works and what needs to be upgraded. Written in the project is that the young people are to have a competence certificate when they finish their STU, this is why we have a test period with the competence boards.

2014 will among other things offer...

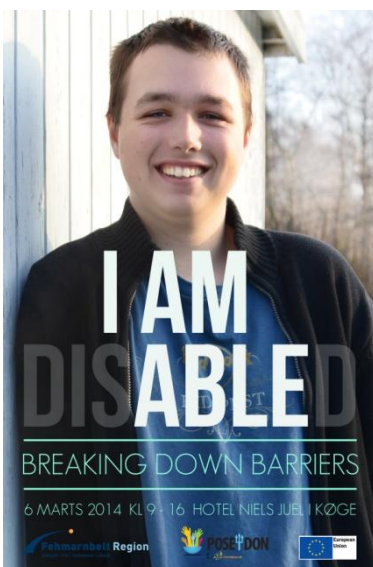

In week 10 we have a student exchange combined with a big conference Thursday the 6 of March. During the student exchange we will offer four workshops, a night out, an night where the German delegation is on their own, the conference Thursday, as well as evaluation of the week which will take place Friday. The four workshops are:

- Kitchen – here they have to make a cookbook
- APPs – here they will work more in dept with which APPs that works for our students
- Presentation/preparation of cases – here they will have drama exercises in order to get the students ready for the conference Thursday
- Practical work – preparation for the conference

The conference "Breaking down barriers" will take place on Thursday the 6 of March and we are really looking forward to see you. We have put together an exciting program which will allow you to get all the way around the problems many of our young people are in. For further information please have a look at www.uuv.dk, www.fremtidslinjen.dk or www.poseidon.jaw-koppelsberg.org/.

In week 15 we have a student exchange in Plön. We have chosen to combine this exchange with a steering group meeting which will take place Thursday the 10 of April. During the exchange our German teacher Henning Jakobsen and Lotte Pedersen from UUV will participate.

In week 20 we will have theme days in Plön. Here three to four staff members from Fremtidslinjen, who are not part of the project or who have entered the project late, will get the opportunity to see Koppelsberg and hear more about how things are there. There will also be presentation of one of the other project they have at Koppelsberg, Plön Work. The days will also be spent on more thorough talk about the competence boards, as well as the experiences the staff from Fremtidslinjen has achieved.

Week 25 offers a combined working- and steering group meeting in Ølby we do not know the content of the program yet. After this we all have summer holiday and the next time we meet our project partners will be in week 43 during the theme days in Ølby. There is no program ready here either.

The last steering group meeting for this project will take place in week 48 in Plön. Here the loose ends are tied together and the project will be evaluated. The end conference is in Plön Monday the 1st of December and our students will arrive during the weekend in order to be able to participate.

Are there any questions or comments you are welcome to make contact.

Kind regards
