

Poseidon info letter no. 8 of 04-07-2014

Distributed to project partners and business partners

Dear project partners.

Here is a small update on the Poseidon project before the summer holiday really kicks in.

Steering group meeting in Ølby the 16-18 of June

Since last we have had a steering group meeting and set dates for the last half year of the Poseidon project.

We begin the last half year of the project with an auditor meeting Thursday the 21 of August and the rest of the year is as follows:

During the autumn there will be two *student exchanges*, one in Plön and one in Ølby.

The *exchange* in Plön is in week 41, and then the students can have a well deserved autumn holiday when they return to Ølby. The *exchange* in Ølby is in week 46.

There will be two *staff exchanges*, also called *team days*, one in Plön and one in Ølby. The *team days* in Plön will take place from Tuesday to Friday the 2-5 of September and the *team days* in Ølby will also take place from Tuesday to Friday but the 21-24 of October.

We have planned a *working and steering group meeting* Thursday the 25 of September and a *steering group meeting* from Wednesday to Friday the 26-28 of November (the 26 of November to the 2 of December).

The main focus on both meetings, as well as the student exchanges will be the conference.

The *end conference* will take place in Plön on Monday the 1 of December and the students and the rest of the Poseidon group will join us Saturday the 29 of November. The Danish delegation will return to Ølby Tuesday the 2 of December.

At the meeting we also had a long talk about the language APP. Everything is on schedule and we have discussed about the frame and the content. We hope to be able to present a proto type at the end conference in December. Fremtidslinjen is in the process of implementing both the competence boards and the certificate of competence. The boards, as well as the certificates, will as mentioned before be main focus during the team days in Plön.

And as mentioned earlier the theme for the conference will be fairytales and the content and the presentation will be something other than what one is used to.

Please remember

Remember it is still possible to visit our project homepage and find information about the project, look at photos from conferences and student exchanges, as well as downloading presentations from the conference "Breaking Down Barriers" from March at <http://poseidon.jaw-koppelsberg.org>.

Have a nice summer.

Are there any questions or comments you are welcome to make contact.

Kind regards
Mai Greve
